 $[\ast]$ High-temperature regime means 60 °C return temperature at heater inlet and 80 °C feed temperature at heater outlet.

[**] Low temperature means for condensing boilers 30 °C, for low-temperature boilers 37 °C and for other heaters 50 °C return temperature (at heater inlet).

This certificate is issued by Radiant Bruciatori spa as a result of the laboratory certification by Kiwa homologating authority.
Certificate No.: KIP-16300/G.
